

RedZero

Software Update

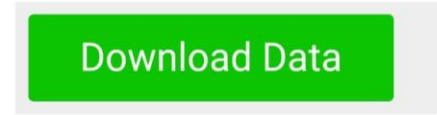

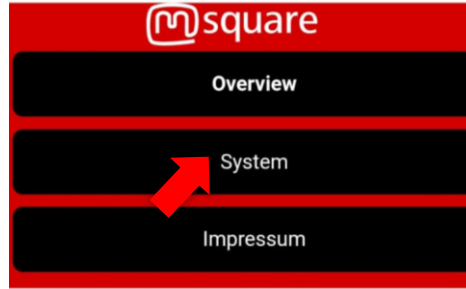

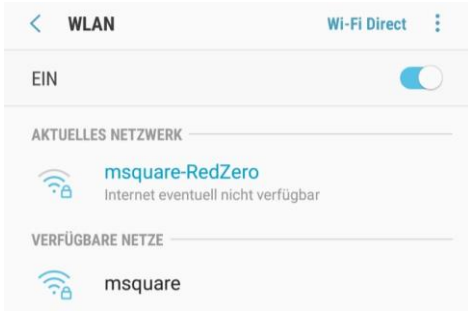

07/03/22

DESKTOP SOFTWARE

To perform the software update use your computer.

Download the new Firmware "firmware.tar"

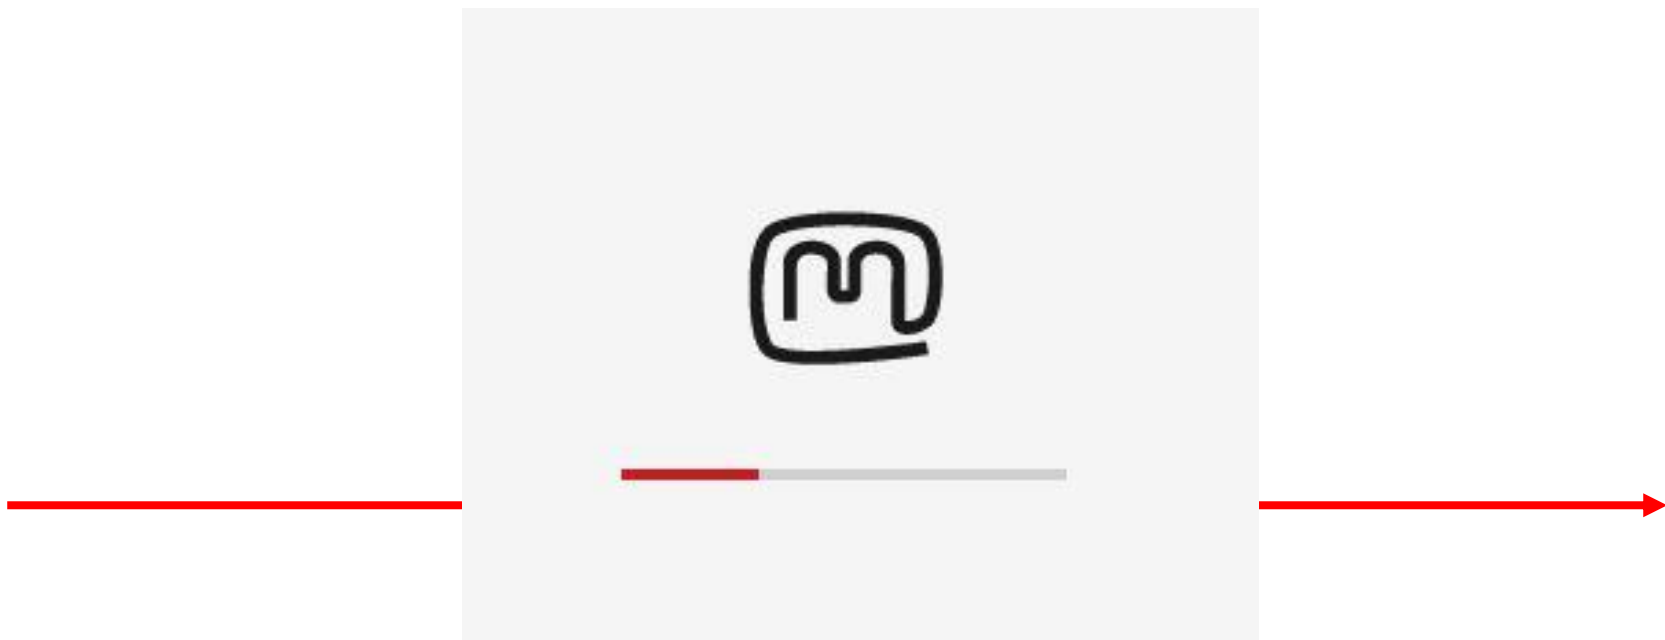

Connect to the RedZero device

PW: redzero1234

Go to "System"

Choose the File containing the firmware update and press "Upload"

The new Version will be installed on your RedZero device.

The installing process takes up to 5 minutes. When the process is done the device will restart.

THANKS!
